- Update from ETSI Plugtest

- Cost optimisation for Enterprise ENUM

- UK ENUM News

- Commercialising ENUM & VoIP

Outline Charter

- The ENUM Working Group discusses developments relating to Internet resource mapping using E.164 telephone numbers as identifiers, commonly known as ENUM. The working group monitors and promotes initiatives to advance this technology. It also identifies ways for the RIPE community to develop and nurture the use of ENUM.
The ENUM Working Group discusses
