

IPv6 wg agenda

David Kessens <david@iprg.nokia.com>
<http://www.kessens.com/~david/presentations/>

Agenda (1/5)

- Administrative stuff
(David Kessens)
 - appointment of scribe
 - attendance sheet
 - agenda bashing
- Global IPv6 routing table status
(Gert Doering)
- "per country view" about IPv6 allocation on the RIPE/NCC
<http://www.ip6.fccn.pt/v6top.html>
(Carlos Friacas)

Agenda (2/5)

- Report(s) about *actual* v6 traffic volume as compared to v4?
what's real out there, not what's on powerpoint?
(input from the audience)
 - Raising RPSLng Awareness
(Carlos Friacas, Simon Leinen and Joao Damas)
 - Discussion of:
<http://ip6.de.easynet.net/ipv6-minimum-peering.txt>
- break --

Agenda (3/5)

- IETF multi6 update
(Kurtis Erik Lindqvist)
- Latest IPv6 Land Speed Record
(Edoardo Martelli)
(we might cover this topic before the break)
- What are the deployment plans behind the larger
ipv6 allocations ?
(Jordi Palet Martinez for Vodafone)

Agenda (4/5)

- IPv6 home automation (Jordi Palet Martinez)
- (brief) update from the RIPE NCC on ipv6 enabled services (Andrei Robachevsky)
- IPv6 network management (IETF MIBs status, NetFlow v9, SNMPv6, and monitoring tools) (Bernard Tuy)

Agenda (4/5)

- Developments/initiatives regarding IPv6 in the RIPE region and beyond (input from the audience)
- Input for the RIPE NCC Activity Plan (input from the audience)
- AOB
